Summary

After a 7 year career as a physiotherapist in Scotland, I discovered my passion for software development and it inspired me to pursue a new career path. Programming became a source of joy for me as I learned to craft full stack applications using React, JavaScript/TypeScript, MongoDB and Node.js.

What sets me apart is my unwavering sense of responsibility, loyalty, adaptability, proactiveness, and thirst for continuous learning. I look forward to an opportunity to contribute my skills and enthusiasm to a dynamic and innovative field.

Work experience

Physiotherapist

Murray Collier Sports Therapy Clinic, Edinburgh, Scotland

2021/02-2023/02

- The most highly rated sports therapy clinic in Edinburgh. The physiotherapist position required great **attention to detail** and **interpersonal skills**.

Meadowbank Clinic, Edinburgh, Scotland

2016/10-2023/02

- Additionally, in this job I had to **collaborate with my team** to create the best treatment plans for our patients.

Education

TypeScript Full Stack Web Development Course (1060 hours)

Code Academy, Vilnius, Lithuania

2023/05-2023/11

- **Grades:** Theory: 10, Practice: 10
- I always went **beyond the requirements** for each course project.
- In my spare time I **helped other** motivated students **learn and understand** the course material.
- I was part of a small, **high-achieving** group to develop an admin page for our lecturer's upcoming project.

Bachelor's Degree in Physiotherapy

Vilnius University, Vilnius, Lithuania

2011-2015

- I **organised** social events for my course and the entire medicine faculty.

Projects (more about them [here](#))

Social Media Website

- User registration and information stored in MongoDB.
- Live updates of online users, live posts, live chats via sockets.

Tamagotchi like game

- Automatic status updates from back end.
- Multiple pets, pet experience and level progression.

Two-player online Battle Game

- Random equipment generation, inventory management.
- Live lobby, battle invites, live online battle system.

Single player Monopoly like game.

- Buy/sell streets, pay tax, win/lose money on chance slots as you go round the gameboard.
- Win the game by collecting all streets before you run out of money.

Technical Skills

-  HTML
-  CSS
-  SCSS/SASS
-  Bootstrap
-  Javascript
-  Typescript
-  React
-  Node.js
-  MongoDB
-  Socket.io

Soft Skills

- High sense of responsibility
- Adaptability
- Loyalty
- Professionalism
- Team player
- Problem-solving
- Honesty
