Summary

After a 7 year career as a physiotherapist in Scotland, I discovered my passion for software development and it inspired me to pursue a new career path. Programming became a source of joy for me as I learned to craft full stack applications using React, JavaScript/TypeScript and Node.js.

What sets me apart is my unwavering sense of responsibility, loyalty, adaptability, proactiveness, and thirst for continuous learning. I look forward to an opportunity to contribute my skills and enthusiasm to a dynamic and innovative field.
